

CURRICULUM VITAE

- I. Names: Ayotunde James Fasunla
- II. Contact address: Department of Otorhinolaryngology, University College Hospital,
Queen Elizabeth Road, PMB 5116, Ibadan, Oyo State, Nigeria
Email: ajfasunla@com.ui.edu.ng; ayofasunla@yahoo.com
Telephone: +2348033740220
- III. University Education (with dates):
- | | |
|--|-------------|
| Obafemi Awolowo University, Ile – Ife, Nigeria | 1990 – 1998 |
| University of Ibadan, Ibadan, Nigeria | 2005 – 2007 |
| Philipps University, Marburg, Germany | 2009 – 2011 |
- IV. Academic Qualifications (with dates and granting bodies):
- | | |
|---|-----------------|
| Bachelor of Medicine and Surgery (MB. ChB),
Obafemi Awolowo University, Ife, Nigeria, | November, 1998 |
| Master of Science (M.Sc.) Science of Surgery,
University of Ibadan, Ibadan, Nigeria, | September, 2007 |
| Doctor of Human Medicine (M.D.) Otorhinolaryngology
Philipps University, Marburg, Germany, | March, 2011 |
- V. Professional Qualifications and Diploma (with dates):
- | | |
|--|-----------------|
| Professional Fellowship in Otorhinolaryngology (FWACS),
West African College of Surgeons | February, 2009 |
| Professional Fellowship in Otorhinolaryngology (FMCORL),
National Postgraduate Medical College, | September, 2009 |
- VI. Scholarships, Fellowships and Prizes (with dates):
- Academic scholarship award (DAAD) of the Federal Republic of Germany for
Doctor of Human Medicine at the Philipps University, Marburg, Germany,
2009 - 2011
 - Research Mentored Year 02 Seed Award by Medical Education Partnership
Initiative in Nigeria (MEPIN): 2012 – 2013
 - American Austrian Foundation Fellowship award 2013 to attend Open Medical
Institute Seminar in Otorhinolaryngology at Salzburg, Austria
 - Global Health Travel award 2015 to attend Keystone Symposia on
'Mechanisms of HIV persistent: Implications for a cure' in Boston, United
States of America
 - American Austrian Foundation Fellowship award 2015 to attend Open Medical
Institute Seminar in Temporal Bone Surgery at Salzburg, Austria

- f. Award of Scholarship by the Postgraduate Academic Mobility for African Physician-Scientists to undertake three-month (March – May, 2016) observership programme at the Division of Otolaryngology, Groote Schuur Hospital, Cape town, South Africa
- g. Global Health Travel award 2018 to attend Keystone Symposia on ‘Leveraging Genomic Diversity to Promote Animal and Human Health’ in Kampala, Uganda
- h. Award of scholarship by American Austrian Foundation in 2021 to attend Open Medical Institute Seminar in Global Health: Neurological and Sensory Disorders: Genes, Pathogenesis and Innovative Therapies at Salzburg, Austria
- i. Award of sponsorship by GlaxoSmithKline Pharmaceutical Nigeria Ltd to attend 2022 European academy of allergy and clinical immunology congress in Prague, Czech Republic

VII. Honours, Distinctions and Membership of Learned Societies:

- a. Chairman, Nigerian Medical Association (Oyo state) July 2020 - 2022
- b. Vice Chairman, Nigerian Medical Association (Oyo state) July 2018 – 2020
- c. Acting Head, Department of Otorhinolaryngology, College of Medicine, University of Ibadan 2018 – 2020
- d. Sub-Dean Postgraduate, Faculty of Clinical Sciences, College of Medicine, University of Ibadan 2014 - 2018
- e. Facilitator for update/revision course in Otorhinolaryngology for the West African College of Surgeons from 2016 till date
- f. Vice Chairman, Rhinology & Allergy Association of the Otorhinolaryngology Society of Nigeria from November 2015 till date
- g. Member, American Academy of Otorhinolaryngology - Head & Neck Surgery Foundation (AAO-HNSF)
- h. Fellow, American College of Surgeons (ACS)
- i. Member, Nigerian Medical Association (NMA)
- j. Member, Otorhinolaryngological Society of Nigeria (ORLSON)
- k. Member, Medical and Dental Consultant Association of Nigeria (MDCAN)
- l. Best Scientific Presentation Award of the Otorhinolaryngological Society of Nigeria at the 2008 Scientific conference in Ile-Ife, Nigeria

VIII. Details of Teaching/Work Experience:

Since 2010, I have worked as a lecturer I, Senior Lecturer, Reader, and Professor. I teach many topics in otorhinolaryngology to medical, dentistry, and other students at the undergraduate and postgraduate levels.

Delivered a Faculty Lecture titled “Snoring: The Untold Story.” on behalf of the Department of Otorhinolaryngology, Faculty of Clinical Sciences, College of Medicine, University of Ibadan, on 19 June, 2013.

Teaching / Training at Undergraduate Level

- a. MBBS / BDS Lectures on: Infections/inflammatory conditions of the nose, Allergic rhinitis, Nasal polyps, Rhinosinusitis and its complications, Trauma, Nasal Foreign bodies, Septal haematoma, Septal perforation, Nasal/ Facial fractures, Sinonasal tumours, Nasopharyngeal tumours, and angiofibroma.
- b. Bed-side teachings at the clinic, wards and theatre in the Department of Otorhinolaryngology
- c. Otorhinolaryngology Seminars and tutorials for Special Posting groups I and II

Supervision of Undergraduate project: I have also successfully supervised four students' termed papers (MBBS)

Teaching / Training at Postgraduate Level:

- a. Taught courses in the Master of Otorhinolaryngology (M.Sc. ORL) programme include:
 - i. Basic Sciences in Otorhinolaryngology (ORL 701) - 2 Units Course
 - ii. Disorders of the nose and paranasal sinuses (ORL 704) - 2 Units Course
 - iii. Emergency and paediatric otorhinolaryngological conditions (ORL 707) - 2 Units Course
 - iv. Clinical procedures in Otorhinolaryngology and practical (ORL 708) - 2 Units Course

Supervision of Postgraduate Students:

- a. University of Ibadan
 - i. MPH Field Epidemiology – Successfully co-supervised a student's project in 2016
 - ii. M.Sc. Otorhinolaryngology – Supervising a student's project in 2019
- b. West African College of Surgeons
 - i. Professional Fellowship Training of Candidates in Residency - I have mentored and supervised 13 ENT specialists who have earned the award of the Fellowship of the West Africa College of Surgeons (FWACS) between 2012 and 2022.

Community Service

- a. Member, Committee on elective posting for foreign students, College of Medicine, University of Ibadan (2021 – 2022)
- b. Representative of Faculty of Clinical Sciences on Biomedical Education on the Senate of UI, College Boards and Committees (2020 – 2022)
- c. Member, Accreditation panel to University of Port Harcourt Teaching Hospital, Rivers state (2021)
- d. Member, Quality Assurance Committee, College of Medicine, University of Ibadan (2012 – 2016)
- e. Member, University of Ibadan Postgraduate School Business Committee, October 2014 – July 2018

- f. Member, University of Ibadan Postgraduate School Curriculum Review Committee, October 2014 – July 2018
- g. Examiner at the biannual Fellowship Examination of the Faculty of Otorhinolaryngology, West African College of Surgeons, from 2013 till date
- h. Examiner at the Fellowship Examination of the Faculty of Otorhinolaryngology, Head & Neck Surgery, National Postgraduate Medical College of Nigeria, May 2019
- i. Course Coordinator for the annual Intensive Revision and Update Course in Otorhinolaryngology, Faculty of Otorhinolaryngology, West African College of Surgeons, 2016 till date.
- j. Member, University of Ibadan Postgraduate School Board, August 2014 – July 2018
- k. Congregation Representative on Senate, University of Ibadan, 2016-2018
- l. Member, Curriculum Review committee on Doctor of Medicine programme of the College of Medicine, University of Ibadan, Nigeria, 2017 - 2019
- m. Annual Community Medical Outreaches of the University College Hospital, Ibadan within Oyo state and Kebbi state, from 2017 till date
- n. Member of Senate, University of Ibadan, Nigeria, August 2018 till date
- o. Assistance General Secretary, Medical and Dental Consultants' Association of Nigeria, 2014 - 2018
- p. Publicity Secretary, Medical and Dental Consultants' Association of Nigeria, 2016 – 2018
- q. Vice Chairman, Nigerian Medical Association, Oyo State Branch, 2018 till date

Administrative Duties

- a. Sub-Dean (Postgraduate), Faculty of Clinical Sciences, from August 2014 to July 2016
- b. Sub-Dean (Postgraduate), Faculty of Clinical Sciences, from August 2016 to July 2018
- c. Acting Head, Department of Otorhinolaryngology, from August 2018 till date
- d. Representative of the Dean of Faculty of Clinical Sciences on Postgraduate matters at the Board of Postgraduate College, University of Ibadan August 2018 till date
- e. Focal person for the office of the Deputy Vice Chancellor, University of Ibadan on Collaboration with institutions of higher learning in the UAE

IX. Current Research and Grant Awards

a. Current Research Activities

Title 1: Repurposing Povidone Iodine for the Treatment of Chronic Suppurative Otitis Media among Nigerian Children.

Funder: Cure Within Reach, USA

Brief summary: Chronic suppurative otitis media (CSOM) is a leading cause of pediatric hearing loss and is associated with significant morbidity and mortality. Its mainstay of treatment is topical antibiotic eardrops, but with emerging resistance and increasing treatment failure, the need to investigate other treatment options has become

necessary. Povidone-iodine is an antiseptic solution used for surgical scrub and perioperative skin preparation. Its efficacy in the treatment of CSOM is investigated in this study. It will be a one-year randomized clinical trial involving 390 children with uncomplicated CSOM aged 6 months to 14 years. Participants will be randomly assigned to one of three intervention groups: Group A [0.3% Ciprofloxacin aural drops and oral amoxicillin with clavulanic acid (30 mg/kg/day divided every 12 hours)]; Group B [5% aqueous povidone-iodine aural irrigation and oral amoxicillin with clavulanic acid (30 mg/kg/day divided every 12 hours)]; and Group C [5% aqueous povidone-iodine aural irrigation without oral antibiotics]. Each arm of the group will receive treatment for 4 weeks. Thereafter, assessments will be conducted at the end of 4 weeks and 3 months after commencement of treatment. Expected outcome measures will be resolution of otorrhoea, reduction in size or complete closure of tympanic membrane perforation, improvement in hearing threshold and negative ear culture results. Positive outcome from this study could provide an efficacious, cost effective and readily available treatment option for CSOM in children, particularly in low resource settings.

Title 2: Evaluation of olfactory function and quality of life of adults with chronic rhinosinusitis

Funder: Self sponsored

Brief summary: Olfactory impairment is a symptom of chronic rhinosinusitis (CRS), but despite its potential influence on general quality of life, it is rarely taken into account in the management of individuals with CRS. The study was designed to evaluate the olfactory function and quality of life of adults with chronic rhinosinusitis in Ibadan, Nigeria. It will be a case-control study of adult patients (18–65 years) with CRS attending otorhinolaryngology clinic, University College Hospital, Ibadan. The control group will be age- and gender-matched people who do not have CRS or nasal pathology. Relevant clinical data will be collected with a structured questionnaire. The participants will undergo nasal endoscopy and also complete a Sino-nasal Outcome Test (SNOT)-22 questionnaire. Olfactory function will be objectively assessed using "Sniffin Sticks" as olfactory thresholds (OT), discrimination (OD), identification (OI), and Threshold Discrimination and Identification (TDI). Appropriate statistical analyses were done and level of statistical significance was set at a p-value of <0.05. The findings from this study will provide information on whether or not the presence of olfactory impairment in CRS will worsen health related quality of life of CRS patients.

b. Grant awards

Grant number: Dr Mercy Jatto

Title: Repurposing Povidone Iodine for the Treatment of Chronic Suppurative Otitis Media among Nigerian Children.

The goal of the project is to determine the efficacy of povidone iodine in the treatment of chronic Suppurative.

Funder: Cure Within Reach, USA

Role: Co-Investigator

Period: April 2022 to March 2023

Grant number: RAB00048 PI: Ogunkoya

Title: Surveillance network constitution and establishment of rabies diagnosis laboratory at the College of Veterinary Medicine, Federal University of Agriculture, Abeokuta

The primary objective is to carry out a more comprehensive surveillance of rabies in a south western state of Nigeria in order to generate information and establish data on the current epidemiological status of the disease and the virus in the study area as well as to establish a sustainable model for rabies surveillance for the country at large.

Funder: Sanofi Pasteur SA

Role: Co-Investigator

Period: September 2017 to August 2018

Grant number: 2013-4692 PI: Akinyinka

Title: Postgraduate Academic Mobility for African Physician-Scientists Scholarship (PAMAPS)

The goal of the project is to build capacities and enhance performance of a new generation of physician-scientists through coordinated actions that will harness both professional and academic resources from six African HEIs. The members of the partnership are College of Medicine, University of Ibadan (COMUI), Nigeria; Addis Ababa University (AAU), Ethiopia; University of Cape Town (UCT), South Africa; University of Lagos (CMUL), Nigeria; University of Nairobi (CHS-UoN), Kenya and Faculty of Medicine and Biomedical Sciences, University of Yaoundé I (FMBS/UYI), Cameroon.

Funder: European Union/EACEA: Intra-ACP Academic Mobility Scheme Africa

Role: Co-Investigator

Period: April 2013 to April 2018

Grant number: G-97944-0 PI: Olugasa

Title: Research and Education in Epizootiology to Achieve More Effective and Efficient Prevention and Containment of Endemic, Emerging, and Neglected Zoonoses.

The goal of the project is to improve postgraduate programmes for surveillance of human-animal diseases in West Africa and establishment of Centre for Control and Prevention of Zoonoses (CCPZ) at the University of Ibadan, Nigeria for the detection,

isolation, and characterization of pathogens of emerging, endemic, and neglected zoonoses.

Funder: John D and Catherine T MacArthur Foundation

Role: Co-Investigator

Period: September 2011 to November 2016

Grant number: R24 TW008878 PI: Olaleye

Title: A mentored seed award was given from the major grant entitled Medical Education Partnership Initiative in Nigeria.

The goal of the mentored seed award was to investigate the effect of maternal HIV status and antiretroviral medications on the hearing of HIV exposed infants in Ibadan.

Funder: NIH

Role: Investigator/Mentee

Period: September 2012 – September, 2013
